

# IoT Hardware

We provide an **end-to-end solution for asset operations.**

With the ToolSense IOT hardware and QR codes, **trade & industrial companies can digitize all of their equipment and assets** - no matter different types of asset or brands.

## Rocbird 2

- ✓ 3 years battery life cycle
- ✓ Replacable AAA batteries
- ✓ GPS location tracking
- ✓ Activity tracking with green bars
- ✓ Serves as Bluetooth gateway for SIRIN Tags

## Caladrius

- ✓ for cars (Plug & Play in OBD II port)
- ✓ captures location, fuel, mileage,...
- ✓ serves as BLE gateway for SIRIN
- ✓ 4G with 2G fallback

## Blackbird

- ✓ for installing into any assets with 10-30 V (higher V can be achieved with converter)
- ✓ captures location, runtime, battery voltage and 2 inputs (10-30 V)
- ✓ serves as BLE gateway for SIRIN
- ✓ 4G with 3G/2G fallback

## Blackbird+

- ✓ for installing into any assets with 10-30 V (higher V can be achieved with converter)
- ✓ captures location, runtime, battery voltage and 2 inputs (10-30 V)
- ✓ serves as BLE gateway for SIRIN
- ✓ Waterproof 4G LTE Cat 1 tracker with flexible inputs
- ✓ IP67 rated casing - dust and water resistant

## Stationbird

- ✓ Plug and Play
- ✓ Serves as BLE gateway for SIRIN Bluetooth tags
- ✓ Location reporting for SIRIN Bluetooth tags
- ✓ Detects SIRIN Bluetooth tags in a radius of up to 60 meters and report once an hour.

## Hawk

- ✓ for installing into any assets with 10-97 V
- ✓ captures location, runtime, battery voltage and 3 inputs (10-150 V)
- ✓ 2G
- ✓ IP67 rating

## Sirin

- ✓ for low-cost assets (ladders, power tools, vacuums, etc.)
- ✓ captures location & sends over gateway
- ✓ 10 years battery lifetime
